

# Bluetooth Enabled Door Lock

## Parts needed

1. Arduino ₹750
2. Electric Door Strike ₹1000
3. Bluetooth Module ₹750
4. Power Supply ₹500
5. Hookup Wire ₹30
6. Breadboard ₹200

## Implementation steps

1. Design and assemble the Circuit (10days)
2. The Code (15 days)

Our motive to take up this project is to learn about making circuits and Arduino coding; and implement it on a practical basis

This we feel, would be helpful in designing other future projects!!
