project abstract

1.title:-

 drone

2.implementation steps:-

week 1-2:-
study,evalutation,designing,purchasi
ng the components.

week 3-4:-making of the model &
report for midway evaluation.

week 5-6:-testing & debugging of the
model.

(may be adding extra features)

3.cost estimation:-

~₹ 12,000

4. <u>learning aspects:-</u>

1.robotics + aerodynamics

2.coding

3.teamwork
